
Acknowledgements

Trees In Newcastle is a community organisation that has been around since 1989. Over this period of time many people have contributed to the success of the organisation. The knowledge contained in this document is a product of people's passion for the environment and a willingness to share that knowledge for a greater environmental good.

However as with all things there are some people who are owed particular mention.

Barb Nanshe for providing the content in the workshop booklets, gleaned from years of experience and dedication to her passion for plants.

Peter Saunderson for providing the beautiful photographs of seed in all its forms from across the Lower Hunter.

Trees In Newcastle staff and volunteers for providing their expertise and knowledge to develop proformas that capture the right information in an easy to use manner.

Suzanne Pritchard for the desktop publishing and compilation of the wisdom of many into a resource for all.

Hunter Councils Inc. for the provision of vegetation mapping resources and weed identification CDs.

Florabank for being an exemplary organisation with accessible information and great guidelines.

Reproduction and sharing

of this resource is encouraged in order to promote community participation in natural resource management.

Prior to distribution or copying permission should be sought from Trees in Newcastle, phone 02 4969 1500, fax 4927 6821, enquiries@treesinnewcastle.org.au , 252 Parry St, Newcastle West, 2302.

The documents carrying the TIN logo should be cited as Trees in Newcastle (2006) Lower Hunter Region Community Seedbank-Landholders Information Kit. Unpublished.
