

Borrowing the Community Seed Collection Kit

Congratulations on wanting to venture out and collect local native seed.
Trees In Newcastle is keen to support your expedition
by lending you a seed collection kit.

The equipment contained in this kit has a value both environmentally and economically. TIN volunteers use it regularly to undertake seed collection trips and it is also used by other community members to collect seed. Trees In Newcastle is a not for profit community group and the equipment is loaned in good faith that it will be treated with respect and returned safe, complete and in sound condition.

Before the kit leaves TIN can you

1. Complete the Tools & Safety equipment checklist. Initial the 'loaned' column to identify the items in the kit you have borrowed. This checklist will be countersigned by TIN staff and photocopied. You will be provided with a copy.
2. Sign the following disclaimer

I _____ (name)
of _____ (address)

Phone contact: _____

Identification: _____

understand that the conditions of borrowing the Seed Collection Kit are that
